Professional Summary

Front-End Developer with 1 year of hands-on experience building responsive and user-centric applications using HTML5, CSS3, JavaScript, Bootstrap, React.js, React Native, and Next.js. Skilled at turning UI designs into clean, functional interfaces and writing maintainable, optimized code. Experienced Software Trainer skilled in teaching C, C++, Java, React, and DSA to students, and effective at guiding them through real coding challenges. Fast to pick up new tech, flexible across tasks, and solid with full-stack basics (Node.js & MongoDB), consistently delivering reliable work in fast-moving environments.

Education

Kongu Engineering College

Nov 2021 – Present

MSc Software Systems

Perundurai

Skills

Frontend: HTML5, | CSS3, | JavaScript, | Bootstrap, | React.js, | React Native, | Next.js | Wordpress

Backend: Node.js (Basics)

Database: MongoDB (Basics)

Languages: C, | C++, | Java, | JavaScript

Tools: Git, | GitHub, | VS Code, | Vercel, | Chrome DevTools

Non-Technical Skills: Team Lead | Coordinator | Organizer | Trainer | Project Lead | Motivator |
Analytical Thinking | Supporter

Professional Experience

Junior Software Developer

Jun 2025 – Present

Gobichettipalayam

- Worked in a dual role across front-end development and technical training, handling both product features and student upskilling.
- Built responsive, user-focused UIs using HTML, CSS, JavaScript, Bootstrap, React.js, React Native, and Next.js, and integrated APIs to deliver smooth functionality across platforms.
- Supported full-stack tasks with Node.js and MongoDB, contributing to end-to-end feature development.
- Trained students in C, C++, Java, HTML, CSS, JavaScript, React, MySQL, and DSA through practical, hands-on sessions.
- Guided learners through real projects, logic-building exercises, and interview preparation to improve their problem-solving and coding confidence.
- Collaborated using Git/GitHub and followed clean code standards, version control practices, and team workflows.

Projects

Kongu-E-Com -- E-Commerce Website (React.js, CSS, JavaScript)

- Built responsive product listing, category filters, and search functionality.
- Developed reusable UI components for product cards, modals, and navigation.
- Integrated cart operations and product data using Fetch/Axios.
- Implemented responsive layouts for mobile, tablet, and desktop using CSS & Flex/Grid.
- Optimized rendering and improved load performance using component memoization and clean state handling.

Jewellery Shop Management System — Product Showcase Platform (React.js, Bootstrap)

- Created multi-category product pages with dynamic routing and detailed product views.
- Built a clean, mobile-friendly UI with reusable components and responsive design.
- Implemented virtual try-on feature using webcam access (Web APIs).
- Added form validation, smooth navigation, and improved user interaction with custom UI logic.
- Managed global state for cart and user actions using Context API.

Kovai's Shop— Booking & Management System (React Native)

- Developed a cross-platform booking UI for salon, gym, hotel, and spa services.
- Built real-time appointment screens, slot selection flow, and availability components.
- Created admin and staff screens for schedule updates and booking management.
- Implemented API integration for service listings, bookings, and user authentication.
- Improved performance with optimized lists, minimized re-renders, and efficient state updates.

Publications

Predicting Course Ratings Using Random Forest Regression

Nov 2025

Rithika V

Published a research paper in an IEEE-indexed international conference, presenting insights and findings on **Predicting Course Ratings Using Random Forest Regression A Machine Learning Approach**. Delivered high-quality technical writing and contributed to research accepted at internationally recognized conferences.

NPTEL & Credit Courses
